Fusion Research debuts new Control4 driver at CEDIA

New driver shown at Control4 booth (161) & Fusion booth (2537)

CEDIA Booth # 3319, Atlanta, 9/9/2009 - Fusion Research released a new IP (and IR) driver for Control4 systems that will further simply the integration of the two brands. It will be featured live in both the Control 4 booth and the Fusion booth at CEDIA.

"This new driver has many features recommended directly from Control4 dealers," stated Ingo Schmoldt, VP of Sales for Fusion. "The products seamlessly integrate and from a value and feature perspective are perfect fits for each other."

This driver is posted in the Control4 database and is also available directly from the Fusion website. Dealers who have installed Fusion/Control4 systems in the past and wish to use this new driver should contact support@fusionrd.com for a quick update to their Fusion system.
