## **Fusion Research Adds Qobuz Streaming Service**

*A new service option for Audiophiles and music lovers*

**Danville, CA 1/25/2023** - Fusion Research, a leading provider of high-performance music servers and streaming solutions, has announced the integration of Qobuz, the acclaimed high-resolution music streaming service, into its music servers.

With this integration, Fusion Research customers will be able to access Qobuz's vast catalog of high-resolution music, which includes over 70 million tracks in CD-quality and above. Qobuz's unique approach to streaming, which includes editorial content, exclusive releases, and a focus on sound quality, makes it a popular choice among music enthusiasts and audiophiles.

"We are thrilled to be partnering with Qobuz to bring their exceptional music service to our customers," said Ingo Schmoltdt, CEO of Fusion Research. "We believe that music lovers deserve the highest quality listening experience, and with Qobuz, they will have access to a truly remarkable catalog of music."

The integration of Qobuz into Fusion Research's music servers will be seamless, allowing customers to easily access the service through their existing user interface. The music servers will also support high-resolution playback of Qobuz's content, ensuring that listeners can enjoy their music in the best possible quality.

The integration of Qobuz is available on all of Fusion Research's current line of music servers, including the CS-200 and PA-1. To learn more about Fusion Research's high-performance music servers and streaming solutions, visit their website at [www.fusionrd.com](http://www.fusionrd.com)
