

Discover The Possibilities™

Fusion Research Play-Fi

Play-Fi Module Setup

About:

Fusion Research provides a state-of-the-art audio media server that allows you to control all your music effortlessly from anywhere in your home. All you need is Play-Fi Server!

Setup Communication:

Play-Fi is controlled over IP on Port 4743. In Compass Navigator, please insert IP Address under Device Properties.

Setup in Play-Fi Portal:

Compass Control will auto-populate your Play-Fi Zones, Sources, and Music Library. In order to do so, please setup all zone names in the Play-Fi Logitech Media Server (LMS) settings. The portal is the IP Address. Once in the LMS settings page, jump to "Player - Basic Settings" and name the zones accordingly.

- Format: <http://<IP Address>>
- Example: <http://192.168.1.107>

Please set all room names and don't forget to login to the desired Squeezebox account to ensure the best media streaming experience.

Setup Complete:

Upload and update project for use.

Control:
